

GET READY FOR F GAS Fluorinated Gases (F-Gas) & Ozone Depleting Substances (ODS) Regulations Awareness

ONE DAY INTERACTIVE WORKSHOP

Many businesses are now looking at getting their workforce trained in compliance with the new F GAS regulations. The "Get Ready for F Gas" course provides the essential knowledge needed by anyone working in the ACR industry and is aimed at Apprentices, Service, Sales & Projects Roles, Installation & Service Technicians, Administration Personnel and Business Owners.

You will learn about:

- Environmental Issues;
- F Gas and ODS Regulations;
- Refrigerant Handling Training Requirements;
- Carbon footprint calculation; and
- Building Business Capability.

On completion of this training course delegates should be able to:

- Define the current F-Gas & legislative requirements;
- Understand the legal obligations of RAC system owners, operators and maintainers;
- Create RAC system registers, F-Gas logs and reporting requirements;
- Identify refrigerant handling training requirements;
- Understand the Carbon Footprint connected to system leaks; and
- Develop a Training Plan for ACR workforce.

The fees for this course are £160 + vat for B&ES members and £230 + vat for non-member companies. Workbooks will be provided. Practical examples will be used throughout the course.
