

3. Waste Carrier, Refrigerant Recovery and F Gas Certification Details

Registered Waste Carrier Certificate

Registration Number: Expiry Date / /

Issued By:

Refrigerant Recovery Equipment

Refcom Elite requires full and accurate records to be kept of all refrigerant transactions i.e. used or recovered. This also includes logging of all refrigerant coming into the business via pre-charged units. You will need to be registered with your local Council as a carrier of controlled waste. This is in addition to the requirements of the Hazardous Waste Regulations. The number of recovery pumps to operatives is not fixed; however a ratio of one pump to one operative is ideal where the operatives are mobile and travel to different sites. Calibrated weighing devices are also to be used when refrigerant is ordered from or returned to a supplier.

Do you own an appropriate number of recovery machines? Yes No Tick as appropriate

Please provide details:

Do you have appropriate calibrated weighing facilities for the bottles used? Yes No Tick as appropriate

Please provide details:

F-Gas Company Certification Details:

Do you hold F Gas Company Certification? Yes No Tick as appropriate

Name of Certification Body that issued your certificate:

5. Declaration

The Declaration is to be signed by a senior manager or director as the authorised representative of the Business.

I confirm that (on behalf of the named business included within this application)

All information and documentation provided in support of this application is complete and accurate;
I/we will abide by the Terms of Registration of the Refcom Elite voluntary registration scheme.

I understand that:

Following submission of this application Refcom Elite will arrange for an initial on-site inspection for the purpose of checking on procedures and equipment relating to refrigerant handling. For the purpose of this inspection I agree I will allow access to my premises when required by an inspector.

I acknowledge that there is a legitimate interest in the following information being made publicly available on the listing of Refcom certificated businesses:

- business or trading name
- unique registration number
- membership status
- contact details as specified in section 1
- certificate expiry date

I also acknowledge that I have the right to object to my details appearing in this listing at any time in the future and can do so by contacting the Refcom team.

Refcom Certification Ltd will use the information disclosed in support of the application for Elite company certification. There is also the legitimate interest for us to use the information for the following purposes:

- to help improve the content of the Refcom website and the service Refcom offers to certified businesses
- for internal audit purposes
- to provide the applicant and employer with information about Refcom and associated industry matters;
- to provide businesses with information regarding updates or additional services available from Refcom Ltd and its associated Group companies;

Refcom Certification Ltd is committed to ensuring that your privacy is protected. To find out more about how we process your data and your rights, please see our online privacy notice.

Full particulars on registration requirements are detailed in the Scheme Operation Booklet at www.refcom.org.uk. In summary the registration criteria is:

1. **Refcom Elite Inspection - BESA member**
company must allow access to their premises when required for the purpose of inspecting records and equipment and verifying statements made in the application. Inspections will form part of the BESA Inspection and Assessment regime.
Refcom Elite Inspection - Non BESA member
company must allow access to their premises when required for the purpose of inspecting records and equipment and verifying statements made in the application. Where appropriate, an inspector may agree to carry out a repeat inspection after deficiencies have been remedied but this will be at the expense of the company. On application an initial on-site inspection will be carried out, thereafter site inspections will be administered every three years (with desk-top audits in the preceding years.) In cases of multi-site applications all business sites will be inspection over a three year rolling programme.

If a company fails to satisfy the inspector on initial inspection the application for registration will not be accepted.
Registration fees are non refundable.

2.
 - a) company must be registered as a carrier of controlled waste
 - b) refrigerant recovery equipment must be used, copy invoices are required as proof of use.
 - c) engineers must be certified as competent to handle refrigerants. Membership of ACRIB or *Engineering Services SKILLcard for your and all sub-contracted refrigerant handling engineers is a condition of Refcom Elite registration. In addition, copies of current F gas qualifications for all engineers are required.
 - d) company must conform to all current legislation
 - e) company must be able to demonstrate an auditable procedure is in place which will enable proper control of refrigerant movement
3. Once a company has undergone a satisfactory inspection they will receive a certificate of registration from the scheme.

* Engineers must hold either a Blue or Gold Refrigeration/Air Conditioning Technician/Engineer Engineering Services SKILLcard.
